FISH ARE RUNNING WELL.

Thousands of Pounds Being Shipped Daily From Alachua Sink.

The fish are running well in the fresh-water lakes at this season, with the result that those engaged in the fishing business are meeting with remarkable success. The fish are not only running well, but the quality seems to be good, the carrying qualities first-class, and in all, every advantage for the successful operation of the business.

In speaking of the industry Thursday, a member of a fishing firm who are operating at Alachua Lake, more familiarly known as the Sink, stated that his firm was shipping on an average of twenty barrels of fine fish per day, the principal points being to Atlanta and Macon, Washington, Baltimore, and points in the East. "The fish is firm, and the fish are carrying well now," he said, "and we are glad of that, for the better and firmer the meat when it reaches its destination, the better the price."

This is only one of three or four fishing firms at the Sink, all of whom are enjoying a big business just now.

DEATH OF MR. WESTGAARD.

Occurred at Miami Tuesday, After Brief Illness of Paralysis.

The Miami Record of the 5th inst. contains the notice of death of P. H. Westgaard, which occurred at the home of his daughter, Mrs. R. Pickle, in that city on the afternoon of that day, of paralysis.

BITTEN BY A DOG.

Little Willis Exley Attacked While Riding Wheel, and Was Bitten.

Little Willis Exley, seven years of age, son of Mr. and Mrs. J. W. Exley, West University street N., had the misfortune Tuesday while riding a bicycle to be attacked by a dog, the animal biting the boy and painfully lacerating his right leg. Dr. J. Harrison Hodges was summoned and rendered surgical medical aid and the patient is resting as easily as could be expected under the circumstances.

While the wound will naturally be quite painful, no ill effects are anticipated. The dog made its escape, and is unknown.

A FINE FIRST-PART.

Gorton's Minstrels Select Tropical Scene Laid in Florida.

Superb in stage setting, scenic effect and sumptuous costuming, the new first-part setting of the performance given by Gorton's Minstrels this season is said to surpass anything ever presented in minstrelsy. The scene represents the broad lawn of the Ponce de Leon Hotel, the famous winter resort of Florida. On every side sparkling fountains and bright-hued flowers adorn the landscape. In the background appears the imposing outlines of this famous hostelry, magnificent in structure and gorgeous in color. Numerous brilliant electric lights add to the splendor and beauty of this tropical scene.

The costuming of the company is elaborate, and calls for special attention. The vocalists are attired in the elegant satin court costumes of Louis XIV; the end-men are resplendent in evening dress suits of cerise satin; the interlocutor appears in a costume of pure white satin, and the orchestra in steel gray satin. The whole picture forms a brilliant and picturesque ensemble, original in conception and pleasing in every detail. The company will appear at the opera house, Gainesville, Saturday evening, March 9.

JUDGE MASON'S COURT.

Interesting Land Case, Involving Valuable Property, Disposed of.

An interesting case has been disposed of in County Judge Mason's court, wherein G. B. Wilson was complainant and A. B. Young defendant, the title of the case being a petition to remove the tenant, which was the defendant and his family, from the premises in question.

This land is located in what is known as the Gordon section, and is said to be quite valuable, as it is capable of producing good crops. The complainant stated that he had permitted the defendant, who is his brother-in-law, to go on the premises and cultivate same on a rental basis, but that he had never been enabled to collect any rent, and when ordered to quit the premises refused to do so.

The jury rendered a verdict for the complainant.

Attorneys W. E. Baker and C. Matheson represented the complainant, and Attorney J. M. Rivers the defendant.

In The Mayor's Court.

Attorney B. A. Thrasher, who was arraigned Tuesday morning upon a charge of disorderly conduct, and who was remanded to prison by the mayor for an alleged contempt of court and gave bond for his appearance Thursday, was again brought before that tribunal on Thursday morning, and when arraigned promptly pleaded not guilty.

As has already been stated in The Sun, on Monday evening, about 6:30 o'clock, five pistol shots in rapid succession were heard in the vicinity of Attorney Thrasher's office. These reports created considerable excitement, and Marshal Pinkoson, accompanied by Officer Bruton and others, arrested Col. Thrasher in his private office, charging him with the shooting.

Marshal Pinkoson, Officer Bruton and others were retained as witnesses for the city. Some of the witnesses stated that they heard the pistol shots, which were in the vicinity of the Thrasher office, but could not swear who fired them.

W. G. Richardson was the only witness for the defense. He stated that he was with Col. Thrasher for a few moments in his office. He had stepped out into the back yard to get a pitcher of water, and while he was out there he heard the pistol shots. When he returned to the office the defendant he found talking over the telephone, and the defendant had no pistol in his hand, as far as he could see, and as his "sight was pretty clear," he was positive that the defendant had no weapon of any kind in his hand when he returned to the office, which was immediately after the shots had been fired.

The court assessed a fine of $50 and costs on the defendant, who gave notice that he would take the advantage of thirty days in order to decide whether or not he would take an appeal.

For Marshal.

I respectfully announce my candidacy for re-election as City Marshal, promising to faithfully discharge the duties of the office in the future as I have endeavored to do in the past. I solicit the votes of all good citizens.

Respectfully,
[illegible]

America is a nation of dyspeptics

The use of lard in cooking is the main cause. For your own protection you should divorce yourself from all food cooked with lard. Instead, use *Cottolene*, the purest and most palatable shortening possible to produce.

Cottolene is made from refined vegetable oil and choice beef suet, is full of richness, yet free from dyspepsia.

It will give you better food, and food which will agree with you.

Cottolene is never sold in bulk. It comes in sealed white pails, with red label and band. In the center of the label is our trade mark—a steer's head in cotton plant wreath. *Cottolene* is not exposed to all the odors which surround it; lard is, because it usually comes in bulk.

The quality of *Cottolene* is guaranteed. We stand behind it. You take no chances in its use.

Forstall dyspepsia by the use of *Cottolene*. Any good grocer will supply you.

A thorough trial of *Cottolene* will make you wonder why you stuck to hog lard so long.

COTTOLENE was granted a GRAND PRIZE (highest possible award) over all other cooking fats at the recent Louisiana Purchase Exposition, and food cooked with COTTOLENE another GRAND PRIZE.

"Home Helps" a book of 300 choice recipes, edited by Mrs. Rorer, is yours for a 2 cent stamp, if you address The N. K. Fairbank Company, Chicago.

A NEW FEATURE—The patent air-tight top on this pail is for the purpose of keeping COTTOLENE clean, fresh and wholesome; it also prevents it from absorbing all disagreeable odors of the grocery, such as fish, oil, etc.

SUNSHINE HAWKS DREW FINE CROWD

First Appearance of Famous Maryland Lecturer Here.

HE DELIVERED A FINE LECTURE

People at Once Fell in Love With Him and His Subject—Morning Session Conducted by Prof. Brown and Evening to Quartette and Pictures.

The Florida Winter Chautauqua opened Thursday morning with a continuation of the lessons of Prof. J. R. C. Brown of Virginia, which have proved of so much interest and so instructive during the sessions of the Bible Conference and the Chautauqua. As a Bible teacher Prof. Brown has proved a great success, and each season here wins for him new friends and new laurels.

At 3 o'clock in the afternoon Arthur W. Hawks appeared for the first time to a Gainesville audience, delivering his famous lecture, "Sunshine and Shadow." The big tabernacle was fairly well filled, which was a compliment to the speaker, considering the hour, and for more than an hour this speaker, both pathetic and humorous, with just enough of each to make his address most enjoyable, entertained his hearers. Mr. Hawks has, by his cleverness and good humor, been dubbed "Sunshine Hawks," and this title fits him exactly, for a better natured or more congenial speaker has never visited this section. A man of broad, generous propensities, with a heart full of love for everything that is good and moral, it is no wonder that he has established for himself throughout the United States such a vast popularity. With a wit of sparkling humor he shows his hearers their frailties in such a manner as not only to awaken peals of laughter, but at the same time to make them long for a larger and better life.

At 8 o'clock the Montauk Ladies' Quartette offered a prelude of fifteen minutes, which was highly enjoyed. This feature was followed by exhibition of the wonderful American Vitagraph, with its fascinating moving pictures, the newest, best and most legible ever seen in Gainesville.

Today Hobson Day.

Today will probably be the most important day of the entire Chautauqua for the present season, as this afternoon the people of Gainesville for the first time will have the opportunity of hearing that distinguished American, the hero of the Merrimac and the idol of the South, Captain Richmond Pearson Hobson, Congressman-elect from Alabama, his native State, one of the bravest young naval heroes the world has ever known. His history is too familiar with the American people to attempt to give a synopsis review, as that would be a reflection upon the integrity of the public. This afternoon Captain Hobson will deliver his famous lecture on "America's Mighty Mission," and it goes without saying that he will be welcomed by one of the largest and most refined audiences ever seen in this city. It is to be regretted that Captain Hobson's engagements would not permit him to appear in the evening, when the hour would have been much more convenient. It is understood that several merchants will close their stores, however, in order to permit their employes to hear this wonderful lecture. All stores should be closed during the lecture, as many are anxious to hear this brilliant young hero and this will be their only opportunity.

This morning at 9 o'clock will be the opening of the school of physical education by Prof. Rucker and Mrs. Adams of Chicago, at which Mrs. Adams will make an address. Prof. Brown in his Bible lesson at 10, and opening of the school of health and cooking at 11 a. m., by Dr. Carolyn Geisel and assistant of Battle Creek (Michigan) Sanitarium. Lecture by Captain Hobson at 3 o'clock, and lecture, "People I Have Met," by Arthur W. Hawks, at 8 o'clock, followed by the American Vitagraph moving pictures at 9:15.

Civil Service Examination.

The civil service examination for clerk and carrier, Gainesville postoffice, was conducted by Clerk Benj. T. Arnow of the postoffice Wednesday. There were eight applicants, but only three appeared for examination.

Mr. Arnow expects to conduct an examination for rural mail carrier for the Newberry district in this city on Saturday, the examination to begin at 9 o'clock a. m., in the council chamber.

FLY FISHING.

The Expert Angler Explains Why It Is a Humane Sport.

"Well," said Chichester, "if it comes to suffering I doubt whether the fish are conscious of any such thing as we means by it. But even if they are they suffer twice as much and a thousand times as long shut up in this hot, nasty pool as they would in being caught in proper style."

"But think of the hook!"

"Hurts about as much as a pin prick."

"But think of the fearful struggle and the long, gasping agony on the shore!"

"There's no fear in the struggle. It's just a trial of strength and skill, like a game of football. A fish isn't afraid of death; he doesn't know anything about it. And there is no gasping on the shore, but a quick rap on the head with a stick, and it's all over."

"But why should he be killed at all?"

"Well," said he, smiling, "there are reasons of taste. You eat salmon, don't you?"

"Ye-e-es," she answered a little doubtfully, then with more assurance, "but remember what Wilbur Short says in that lonely chapter on 'Communion With the Catfish'—I want them brought to the table in the simplest and most painless way."

"And that is angling with the fly," said he, still more decidedly. "The fly is not swallowed like a bait. It sticks in the skin of the lip, where there is least feeling. There is no torture in the play of a salmon. It's just a fair fight with an unknown opponent. Compare it with the other ways of bringing a fish to the table. If he's caught in a net, he hangs there for hours, slowly strangled. If he's speared, half the time the spear slips, and he struggles off badly wounded, and if the spear goes through him he is flung out on the bank to bleed to death. Even if he escapes he is sure to come to a pitiful end some day—perish by starvation when he gets too old to catch his food or be torn to pieces by a seal, an otter or a fish-hawk. Fly fishing really offers him"—

"Never mind that," said Ethel. "What does it offer you?"

"A gentleman's sport, I suppose," he answered rather slowly.—Henry van Dyke in Scribner's.

EFFECT OF THE FOOD LAW.

Driving Many Worthless Catarrh Medicines Out of Existence.

The Pure Food and Drug Law, which went into effect the first of January, has already shown the good that will follow its enforcement.

Many worthless remedies, that have been advertised for the cure of catarrh, a disease that is universally prevalent, have been driven out of existence by the Pure Food Law.

The effect of this is to increase the sale of remedies that are valuable and that fulfill the provisions of the law. Hyomei, for example, is meeting with a larger sale than ever before, and J. W. McCollum & Co. still sell it under a guarantee that it will cure catarrh or the money will be refunded. Hyomei is a scientific treatment that is recommended by the best physicians. It cures catarrh without stomach dosing through inhaling medications that go right to the affected spots.

By breathing Hyomei three or four times daily through the neat pocket inhaler that comes with every outfit, its medicated, healing air penetrates to the most remote parts of the nose, throat and lungs, searches out and kills all catarrhal germs, and soothes and heals any irritation in the mucous membrane.

The complete Hyomei outfit costs $1 00, extra bottles if needed, 50c, and is sold by J. W. McCollum & Co. under the guarantee that it will cure or cost nothing.

Preparing For It.

"Hello, Stinjay!" cried Knox. "Looking for anybody?"

"Why, yes," replied Stinjay. "Wiseman was to meet me here at 6 o'clock to go home to dinner with me, and it's 6 now."

"Oh, he'll be along! I just saw him finishing a porterhouse steak in that restaurant down the street."—Philadelphia Press.

The lecture given at the Ladies' Hall by Archdeacon L. E. Goodwin for the Ladies' Literary and Debating Society on Monday night was a great treat to the large and interested audience. The title was, "Common Words and Common Phrases." It was an excellent paper, well thought out and showing a great deal of knowledge as to the origin of the words used in the text, "A red and white check cotton pocket handkerchief." After the lecture the usual discussion took place and many interesting remarks were made by several of the audience in regard to the new style of spelling, etc. It is to be hoped that Mr. Goodwin will favor our town with another lecture on his travels in Africa later on.

LITTLE BABY CURED OF ECZEMA

Parents Applied to Hospitals and Doctors but Could Get No Relief—Grew Worse Under Doctor's Prescription—Friends Recommended Cuticura—Result

A SPEEDY AND PERMANENT CURE

"We express to you herewith our best thanks for the cure of our baby from eczema. The eczema appeared when the child was three months old. We applied to several doctors and hospitals, each of which gave us something different every time, but nothing brought relief. A physician recommended a salve which we threw into the fire after two days' use as the eczema became worse so that the baby scratched his face. At last, one of our friends recommended to us Cuticura Soap and Cuticura Ointment. A few days afterwards improvement could be noted. Since then we have used nothing but Cuticura Soap and Cuticura Ointment, and now the baby is six months old and is quite cured. All that we used was one cake of Cuticura Soap and two boxes Cuticura Ointment, costing in all $1.25. Even the poorest man can pay that instead of throwing it into the doctor's lap. I myself only make twelve dollars a week as a teamster, but I recommend the Cuticura Remedies strongly to all mothers whose children suffer from such diseases. They are cheap, harmless and good. C. F. Kara and Wife, 343 East 65th Street, New York, March 30, 1906."

FOR SORE HANDS

Soak the hands on retiring, in a hot, creamy lather of Cuticura Soap. Dry and anoint freely with Cuticura Ointment, and in severe cases spread the Ointment on thin pieces of old linen or cotton. Lord Primrose I was purchased by G. G. Council, Vandalia, Ill., the price being $2,500. Lee's Artful Bell, 11th, brought $1,325, the highest price ever paid for a sow at public auction. She goes to the Aldoro farm, Rosston, Pa. W. S. Corsa, Whitehall, Ill., paid $1,100 for Artful Bell, 36th. Four hundred buyers attended, representing fourteen states.

And remember the next time you suffer from pain—caused by damp weather—when your head nearly bursts from neuralgia—try Ballard's Snow Liniment. It will cure you. A prominent business man of Hempstead, Texas, writes: "I have used your liniment. Previous to using it I was a great sufferer from rheumatism and neuralgia. I am pleased to say that now I am free from these complaints. I am sure I owe this to your liniment." Sold by W. M. Johnson.

Shaw Takes Up New Duties.

New York, March 7.—Leslie M. Shaw, whose resignation as secretary of the treasury went into effect on Monday, took up on Tuesday his duties as president of the Carnegie Trust company. Secretary Shaw found little time Tuesday for his work. He spent most of the day in receiving those who called to wish him well in his new undertaking. It is the purpose of Mr. Shaw to reside for a time at the Fifth avenue hotel, where he will be joined by his family a week hence.

Elected County Council.

London, March 7.—Forty-nine reformers and 29 progressive socialists were elected to the county council of Somersetshire Monday. Apparently socialism is having a set back, for the party has lost in the municipal elections of Middlesex and North Wales. In the latter district the conservatives captured 36 seats.

Worked Like a Charm.

Mr. D. N. Walker, editor of that spicy journal, The Enterprise, Louisa, Va., says: "I ran a nail in my foot last week and at once applied Bucklen's Arnica Salve. No inflammation followed; the salve simply healed the wound." Heals every sore, burn and skin disease. Guaranteed at all drug

Silver Service for Battleship Georgia.

New York, March 7.—The officers of the battleship Georgia, which is at anchor off Tompkinsville, learned on Tuesday that soon the vessel would receive a silver service to be presented by the various cities and towns of the state after which the fighting ship is named. Atlanta and Savannah will give a candelabra worth one thousand dollars each. Columbus will present a centerpiece to cost about the same. Augusta, Athens, Macon and Americus will contribute compotes costing about $250 each and 48 of the smaller towns will each give a cup. The name of each town will be engraved on the pieces they present. The service, which is now being made, will be turned over to the battleship at the Jamestown exposition on Georgia day, early in June.

Railroad Elects Officers.

San Francisco, March 7.—The Western Pacific railroad held its annual meeting in this city Tuesday night. George J. Gould was re-elected a director as were also the following other New Yorkers: E. T. Jeffer, Edwin Hawley. The other directors were chosen from California. E. T. Jeffer was re-elected president. The company is now spending at the rate of $1,000 a month on construction work. It is hoped to have its main line from Salt Lake to this city, a distance of 929 miles, which they expect to complete by Sept. 10, 1908.

Dangers of Pneumonia.

A cold at this time if neglected is liable to cause pneumonia which is so often fatal, and even when the patient has recovered the lungs are weakened, making them peculiarly susceptible to the development of consumption. Foley's Honey and Tar will stop the cough, heal and strengthen the lungs and prevent pneumonia. Lagrippe coughs yield quickly to the wonderful curative qualities of Foley's Honey and Tar. There is nothing else "just as good." J. W. McCollum & Co.

Wooten Tries to Suicide.

Atlanta, March 7—Sidney Wooten, 30 years old, an employe of Foote & Davies, the printers, attempted to commit suicide Tuesday afternoon at his boarding house. Wooten took laudanum, but was taken to the hospital and the effects of the poison overcome. Some one in the house found a note Tuesday afternoon, in which Wooten announced his intention of taking his life, saying that "it was for the best." He ascribed no other cause. He was found in his bed breathing heavily and unconscious.

Alice Roosevelt's Wedding

Was something to be recorded in the annals of history. Herbine has been acknowledged the greatest of liver regulators. A positive cure for bilious headaches, constipation, chills and fever, and all liver complaints. J. C. Smith, Little Rock, Ark., writes: "Herbine is the greatest liver medicine known. Have used it for years. It does the work." Sold by W. M. Johnson.

Found a Pearl in Oyster.

Madison, Fla., March 7.—While attending a shaking dish social at the Lines hotel here, Charles E. Read, of Atlanta, found a valuable pearl in an oyster. The pearl was valued at $50 by T. C. Vann, a local jeweler. Mr. Read is the traveling representative of the Anner Tobacco company, of New York. His home is at 265 Ivy street, Atlanta.

The New Pure Food and Drug Law.

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. J. W. McCollum & Co.

CONSTIPATION.

I can tell a person who is constipated on sight. Their complexion is pasty or yellow. Their eyes are dull, and they look and feel sleepy. No wonder they do. The bowels are a sewer. They carry away the poisonous refuse. If they dont act the poisonous matter is absorbed by the body, and headaches, dullness, bad complexion and eventually serious troubles result.

SAMUEL BOOREN.

There is no better rule for good health than that the bowels should move every day at the same hour if possible. Regularity can be acquired by making a habit of this. Foolish people neglect this and when chronic constipation effects them they take pills every few days to force the bowels to perform their natural function. As years go on they require more and more pills. This should be stopped. Cooper's New Discovery will build up the stomach and cause the bowels to act naturally. While taking the medicine get the habit of regularity, then gradually stop taking the medicine.

Here is a sample of letters from those who have tried it:

"For sixteen years I have suffered from stomach and liver trouble, and chronic constipation. I had frequent headaches and always felt tired and worn out. I heard of Cooper's New Discovery and began its use. After I had finished one bottle I was wonderfully improved. Constipation gave way to a pleasing regularity of the bowels and I ate better, slept better and felt better than I had for months. It is the greatest medicine I have ever known." Samuel Booren, 1742 Munsey Ave., Scranton Pa.

Our customers who have used them say the Cooper medicines do the work. We sell them.

Lunched with Clerks.

Washington, March 7.—Secretary Cortelyou, the new head of the treasury department, astonished the hundreds of clerks who take their midday lunch at a restaurant across the street from the treasury building, by appearing among them Tuesday. He ate a sandwich and a piece of pie and drank a mug of milk. Many of the $1,000 clerks partook of a more sumptuous repast. Secretary Cortelyou was accustomed to lunch at this stand when he was private secretary to the president.

The Senatorial election in Levy county takes place next Tuesday.

Nothing seems to have been heard of a gentleman named A. Carnegie since his philanthropic nose was put out of joint by one J. Rockefeller.

The Democratic issues of the next national campaign will be tariff reform and trust curbing, home rule and State rights, and retrenchment vs. extravagance.

Deep down in his heart Mr. Jerome must be satisfied that some of the people who have been attending the trial are in greater need of the attention of a lunacy commission than Harry Thaw ever will be.

That list of Republican "special" employes which the Tillman dragnet has raised to the surface shows that a good many sons of their fathers have been provided with comfortable government berths with good pay that Congress never appropriated for.

In retaliation for two-cent fare legislation, says The Pensacola News, the railroads threaten to give the public "two-cent service." The list of wrecks and the loss of life indicate that the public has been getting something like two-cent service for a long time.

The Republican majority of the United States Senate appropriated over $100,000,000 in fifty-two minutes in the last week, but one of the session, and would have accomplished the work quicker but some old-fashioned Democrats took time to object to this Republican rapid extravagance.

The meeting called by the Farmers' Institute, which will be held at the court house tomorrow, should be largely attended, as it will be beneficial to each farmer and trucker to learn one another's methods in the business. The meeting is to be addressed by a number of the most successful truckers in the State, and their ideas cannot but be of help to those engaged in this vocation.

At last, everything reduces itself to the commercial value that's put on your "thinker." Men pay you for what you know. The rarer the commodity the higher the price. It makes no difference what it is, if men want it they at last pay for somebody's thought in some sort of form. Kant only weighed one hundred and fifteen pounds in the shade, and he was never in all his eighty years more than twenty miles from home, but he was one of the greatest thinkers the world ever knew. Kant knew—and Kant lives.

Through the generosity of The Detroit Free Press, which has been offering a subscription competition for the most popular young lady in various districts within the State of Michigan, the prize for the successful contestants to consist of a free trip to points of interest in Florida and Cuba, twenty-five handsome young ladies and several of their friends are now enjoying this delightful outing. The party passed through Jacksonville a day or two ago, and after visiting points of interest on the East Coast, will proceed to Cuba.

A BEAUTIFUL PICTURE.

Did you ever notice how really beautiful gum chewing makes a girl appear? Take her de facto, and gazing steadily, one cannot find a more ideal picture. With a sharp click! clack! her teeth, so white and pearly, are clashing together as, with cowlish glee, she masticates her cud. Then, too, one can note her health tinted, well-rounded cheeks as they grow a little more rotund, through the material assistance of a big "hunk" of gum. And really, who can imagine a fairer spectacle than that of her dainty upturned nose, as it gently rises and falls in wave-like undulations over the abysmal depths revealed at each pressure against the mass? Oh, how deliciously tempting that rosebud mouth is as the maiden fills it with a soft, pliable chunk, and champing like a festive goat revelling in the luxuries of the succulent tomato can, she greets you in tones husky with gum.

SOME GOOD ADVICE.

Foolish spending is the father of poverty. Do not be ashamed of hard work. Work for the best salary or wages you can get, but work for half price rather than be idle. Be your own master, and do not let society or fashion swallow you individually—hat, coat and boots. Do not eat up or wear out all you can earn. Compel your selfish body to spare something for profits saved. Be stingy to your appetites, but merciful to others' necessities. Help others, and ask no help for yourself. See that you are proud, too! Let that pride be of the right kind. Be too proud to be lazy; too proud to give up without conquering every difficulty; too proud to wear a coat you cannot afford to buy; too proud to be in company that you cannot keep up with in expense; too proud to be stingy.

The Live Oak Democrat says: "The movement to take the Florida State troops in a body to the Jamestown Exposition is a good one, and we heartily wish that it may succeed. Our prospect for a building and exhibit at Jamestown is a very poor one, but if we can put our soldiers on parade there, the world will at least know that Florida is on the map, and that she has soldiers fit to compare with the best. We have some fine military companies in this State, young men who serve a high and useful purpose, and they deserve warm encouragement in the good work they are doing in keeping up the efficiency of the military arm of the State government. He is a shallow man, indeed, who decries their services or depreciates their value, and is just the kind of fellow who would complain the loudest if they were not present when they happened to be needed. Give the boys an outing at Jamestown. It will do them good and give them more interest in their organization hereafter."

The rottenness of Russian political society is not confined to the nobility nor even to the lower classes, as was demonstrated by the revelations of the raid made by the police on the rooms of the students of St. Petersburg Polytechnic Institute in which there was found secreted twelve infernal machines, twenty explosive hand grenades, a lot of repeating rifles, 200 pounds of pyroxyline and 400 pounds of dynamite, all intended for a series of outrages on public officials in the near future.

Did you ever stop to reflect that it was one thing to talk about people and another thing to have people talk about you? If those of us who use our tongues a little too freely about our neighbors, would stop and reflect about this matter and know the great evil that comes from too much gossip and tattling, we are sure we would call a halt and gossip no more.

SERMONETTES

BY J. MARVIN NICHOLS.

I often wonder about these professional loungers on our streets when there is so much manless land for the landless man.

That Thaw-White-Nesbit-et al testimony brings to us the muffled clank of chains that bind restless skeletons in many another home.

Most the world is unwilling to follow dull plodding for a fortune. We are all hunting a pot of gold buried at the foot of some rainbow.

The Philistine is right: "A strong man represents the triumph of mind over matter. The politician represents the triumph of mind over morals."

Let your frends be numberless. But that inner circle—be warry of its growth. The day Napoleon reduced it to three personages he paved his way to the crown.

It is time that we learned music cannot atone for indecency, nor can illicit love be concealed in the benison of beauty—Oscar Wilde and his "Salome" to the contrary not withstanding.

After reading the manner of some in our metropolis on this side the earth, I begin to wonder why Maxim Gorky was kicked out of a New York hotel simply because there was a woman in the case. But if he had been "home folks" it would have been so different, you see.

The "tenderloin" stories of millionaire life are now coming into the lime light through the famous murder-trial now on in New York City. Don't heap your condemnation on a journalism that simply caters to the apostate taste of a world-wide constituency. First you condemn the erstwhile saint who suspends her piety while she wades through these voluptuous and sensuous bogs. While this remarkable case is uncovering "The Cave Dwellers" among the rich, it is at the same time bringing to the front the real thing that satisfies the craving and disordered maw of the reading public.

DRUGGISTS' GLOBES.

How the Colors in the Window Emblems Are Produced.

"The big glass globes filled with colored water which were once in the front windows of every drug store are not seen now as frequently as of old," said a drug clerk to a reporter.

"Of course many are still in use, but in the readjustment of the window displays in drug stores by reason of the installation of the electric light they have been displaced. With the old gas jet arrangement there were but two or three separate illuminations, mostly placed behind the globes in question.

"The colored contents of these globes and their chemical constituents are a mystery to most persons, and I have had ladies ask me if they contained colored perfumes. The globes are made in all sorts of fancy and elaborate shapes and designs. Some are costly. Their history is buried in antiquity, but as they contain chemical compositions they were primarily, as they are now, the emblem of the chemist.

"The water is filtered and beautifully colored by chemical admixtures and are composed of such chemicals that they will withstand the rays of the sun and not fade. The exquisite pale green, which is one of the popular selections of coloring, is a solution of nitrate of nickel, and most persons will be surprised to learn that it is derived from dissolving the common five cent nickel piece in nitric acid. A few five cent nickel pieces dissolved in this acid will produce enough coloring body to tinge several gallons of water and give the coloring which is most pleasing to the eyes.

"The red, which is also a very bright, beautiful and permanent color and which shows very effectively both by day and when illuminated at night, is made from resublimated or metallic iodine. The blue is made from sulphate of copper and ammonia, and the yellow is produced by an admixture of chromate of potash and sulphuric acid. Any person can make these beautiful colorings, especially the green, but as the acids used are very powerful it is best to have them prepared by a chemist, as a drop of nitric acid on the hand will eat a hole in the flesh.

"In fact, even druggists make mistakes. I remember one who tried to get a fine new color that other druggists didn't have, so he mixed tincture of chloride of iron with antipyrin. It did, in fact, make a fine color in the globes, but when the sun's rays rested on it for a few hours explosive gases were generated, which sent the globes flying in a thousand pieces and wrecked the contents of the window."—Washington Star.

Saved Her Son's Life.

The happiest mother in the little town of Ava, Mo., is Mrs. S. Ruppee. She writes: "One year ago my son came down with such serious lung trouble that our physician was unable to help him; when, by our druggist's advice I began giving him Dr. King's New Discovery, and I soon noticed improvement. I kept this treatment up for a few weeks when he was perfectly well. He has worked steadily since at carpenter work. Dr. King's New Discovery saved his life." Guaranteed best cough and cold cure by all druggists. 50c and $1.00. Trial bottle free.

Fishing Line Worth $2,000.

"A fishing line worth $2,000?"

"Yes, sir."

"I don't believe it."

"It's the truth. It's a codfish line. It's one of those lines to which you tie your Sunday morning codfish balls and your less appetizing but equally useful cod liver oil. These codfish lines, you see, are frequently eight miles long. They have 4,680 hooks. They'll often land 2,500 cod. No wonder they cost $2,000, eh?"—Cincinnati Inquirer.

One View of It.

SOME NEW YORK "FIRSTS."

The first street used for building purposes was Pearl.

The first manor house was erected by Killian Van Rensselaer in 1630.

The first man sentenced to be hanged for murder was a negro known as "the giant" (1641).

The first record of marine signaling was a small redoubt erected in 1641 upon the eastern headland of the island, where a flag was raised whenever a vessel arrived.

The first building on the site of New York city was erected by the Dutch in the spring of 1615. It was a tiny structure of logs, answering the double purpose of storehouse and fort.

The first ferry to Long Island was established in 1637. It was in the vicinity of Peck slip. Cornelis Dircksen, who had a farm near by, came to ferry passengers at the sound of a horn which he hung against a tree near his skiff.—New York Herald.

Kissing the Feet.

The custom of kissing the feet of persons whom it was desired to honor originated with the ancients. The people of oriental nations used to kiss the hands and feet or hems of the clothes of the persons they wished to show respect for. The ancient Egyptians got this custom from the Assyrians, and later the Greeks adopted the habit from the Egyptians. The Romans followed the Greeks, and then Pontifex Maximus had his great toe kissed by celebrities. The toe of the sultan of Turkey is kissed by subjects of high rank. Those of more lowly position are merely allowed to touch the fringe of his garment to their lips, and the poorest classes must be content to make a low obeisance in his presence.

BLINDING SNOW STORM

Sent on Pittsburg by Big Spot on the Sun.

Pittsburg, Pa., March 7.—This city was suddenly enveloped in a snowstorm that resembled a blizzard just before dark Tuesday night, and for an hour all street car service was crippled. Many lines were tied up because of the inability of the motormen to see beyond a few feet ahead of them. During the fury of the storm, thunder and lightning were frequent, telegraph and telephone lines were seriously affected, shutters and chimneys blown down, and pedestrians were obliged to seek shelter from a 52-mile northwestern wind. Within a half hour the mercury dropped 15 degrees. Up to midnight one death as a result of the storm was recorded.

Professor John A. Brashear, of the Allegheny observatory, last week, predicted that this vicinity would experience phenomenal atmospheric conditions about the middle of this week, because of a great spot on the sun.

Miss Sarah Stewart, 30 years of age, was returning home in Allegheny and left a trolley car to walk a few blocks to her home. The gale overcame her, and she struggled to a porch of the first house she came to. She was taken in, and immediately dropped dead. The coroner reported heart failure due to exhaustion.

Refused to Return to Jungle.

New York, March 7.—Ota Benga, the Congo pygmy, who has been living in Howard Orphan asylum, in Brooklyn, since he was taken from the Monkey house in the Bronx Zoo last September, through the efforts of the negro clergymen of New York, refused to go back to the jungle on Tuesday. Professor S. P. Verner, who brought him to this country, turned him over to the park authorities until such time as he should return to Africa started for the Congo Tuesday with an American exploring expedition. Before he started he called on Ota Benga and told him he would take him back to Africa if he wished to go. The pygmy, who is learning the English language, wants to become a missionary before he returns and tell Professor Verner so.

How to Remain Young.

To continue young in health and strength, do as Mrs. N. F. Rowan, McDonough, Ga., did. She says: "Three bottles of Electric Bitters cured me of chronic liver and stomach trouble, complicated with such an unhealthy condition of the blood that my skin turned red as flannel. I am now practically 20 years younger than before I took Electric Bitters. I can now do all my work with ease and assist in my husband's store." Guaranteed at all drug stores. Price 50c.

Shoots Grandfather, Wounds Uucle.

McKenzie Ala., March 7.—Jim Halford, a young white farmer, shot and fatally wounded his grandfather, Marshall Smith, and painfully wounding his uncle, Clay Smith. The three men were drinking, it is said. Halford was placed in jail at Greenville.

CRIPPLED HANDS AND FEET

Marvellous Cure of Rheumatism by

MINARD'S KING OF PAIN LINIMENT

"Four years ago I was taken with rheumatism. I lost the use of my hands and had to go to the hospital, but did not get any relief. I also had it in my limbs and body and could not walk for six months. I was a patient in the Homeopathic Hospital, the Emergency Hospital, and the New England Hospital, and did not get any relief from any of them. I also went to the Fourth Grade Hospital in New York. Some of Boston's best physicians attended me and still I found no relief. For three years I could not do any work at all, but for the last year, since using Minard's Liniment, I am able to do all my housework. I think that I know the worth of Minard's Liniment better than any person who has ever suffered with rheumatism. Hundreds of people who know of my suffering give Minard's Liniment the praise. I wish that every one knew the worth of this Liniment as I do. Yours truly, Mrs. Emma B. Williams, 62 Sawyer St., Boston."

Large bottles 25c. and 50c. At druggists and general stores.

For free sample bottle write Minard's Liniment M'f'g Co., So. Framingham, Mass.

After having prepared breakfast for her father and brother, she went into the room where they were sleeping and committed suicide there. The girl's mothr is dead. There is no reason assigned for her rash deed.

Orino Laxative Fruit Syrup stimulates the liver and thoroughly cleanses the system and clears the complexion of pimples and blotches. It is the best laxative for women and children as it is mild and pleasant, and does not gripe or sicken. Orino is much superior to pills, aperient waters and all ordinary cathartics as it does not irritate the stomach and bowels. J. W. McCollum & Co.

I. M. Cox of the Southern Express Company, with headquarters in Jacksonville, accompanied by his mother-in-law, Mrs. T. W. McCaa, of Portsmouth, Va., arrived in the city Wednesday. Mr. Cox, who was here on official business, left Thursday morning, but Mrs. McCaa will remain here for sometime as a guest of her daughter, Mrs. H. C. Denton.

Mr. and Mrs. Earnest Harrod and A. F. Harrod have been near Romeo for the past few days, where they have been visiting relatives, Mr. and Mrs. T. F. Morgan. Mr. Morgan owns a fine grove, and judging from the bloom, will have a profitable crop the coming season. A. F. Harrod returned home yesterday, while Mr. and Mrs. Earnest Harrod proceeded to Bronson for a few days.

RELIABLE INFORMATION

About a Reliable Medicine.

We want the people of Gainesville to know that we believe the most valuable cod liver preparation—the best tonic reconstructor, health restorer and strength creator known to medicine today, is Vinol.

Vinol is not a patent medicine as everything it contains is named on the label of every bottle. We guarantee Vinol contains besides tonic iron all of the medicinal, curative and body building elements of cod liver oil actually taken from fresh cods' livers, but without a drop of the useless oil to clog the system, upset the stomach and retard its work. This is why Vinol is so far superior to old-fashioned cod liver oil and emulsions.

Vinol is actually guaranteed by over five thousand leading druggists of the United States to create health and strength for old people, weak, sickly women and children, nursing mothers, and after a severe sickness, and for hacking coughs, chronic colds, bronchitis and all throat and lung troubles.

Try Vinol on our guarantee.—W. M. Johnson, druggist.

NOTE.—While we are sole agents for Vinol in Gainesville, it is now for sale at the leading drug store in nearly every town and city in the country. Look for the Vinol agency in your town.

CHANGED MEETING PLACE.

Alachua Camp, Woodmen of World, to Meet in Masonic Hall.

Owing to the conveniences which are afforded in the Masonic Hall, over Dutton's bank, where the majority of the secret orders of the city are accustomed to convene, Alachua Camp, Woodmen of the World, have arranged to hold their meetings in that lodge room in future, beginning tonight. In future meetings will be held semi-monthly, on the second and fourth Friday evening of each month, instead of weekly, as heretofore. While the membership of Alachua Camp is a large one, it was deemed advisable to meet only every two weeks, owing to so many of the members being connected with other secret orders.

"Some Kind of a Meeting."

There seems to exist either some dissatisfaction of the present municipal administration, or a desire to make a change, as a meeting was held in the P. O. S. of A. hall last night, which it was said was fairly well attended.

This was called a citizens' meeting, but only certain citizens were apparently qualified to enter, the doors being closed, and attended by sentries, during the session.

Inasmuch as this was somewhat of a secret session, it is not possible to publish the proceedings or give the names of the candidates for city offices, if any were suggested or nominated.

Dr. R. Goldstein, the well known optic specialist, of Louisville, Ky., who has been here often and fitted glasses to many of our best citizens, is at the Brown House until Friday noon, March 8th, where he can be consulted. All defects of eye-sight correctly fitted with glasses; absolute accuracy in testing eyes and perfect satisfaction guaranteed. If you have headache or neuralgia, consult Dr. Goldstein and get relief. Have your children's eyes attended to before sending to school. Examination free.

Among the prominent visitors to Gainesville during the past two days was National Bank Examiner F. Coates, Jr., of Richmond, Va., who was here on official business. He examined into the condition and affairs of the First National Bank, at the conclusion of which he paid the officers a high compliment on the same.

G. A. Singletary, formerly of this city but now residing at Macon, Ga., where he has a good position as yard foreman with the Central of Georgia railway, was in the city yesterday. Mr. Singletary has many friends in this city and section who are always glad to see him. He expects to return to Macon today.

L. Ivey, foreman of construction work for the Western Union Telegraph Company, has returned from a tour of inspection between Burnett's Lake and Jacksonville.

John Harroll, a farmer of LaCrosse, was trading in the city yesterday.
